

NordYrk activity plan 2025–2026

During the period 2025–26 NordYrk:

- Plans and organises the NordYrk 2026 conference in Jyväskylä Finland
- Maintains the archive of conference documents and proceedings at www.nordyrk.net
- Develops the content of the website
- Is increasing its social media presence to disseminate information about research and development projects, networks and other activities within NordYrk.
- Contributes to providing meeting places for presentation and dialogue about research and development projects related to vocational education and training at different levels.
- Disseminates information about the network as a meeting place and source of knowledge for researchers and doctoral researchers
- Promotes interest in vocational education and training among the various social actors in society, and
- Disseminates information on research and journals on VET.
- Enhances collaboration with other international researcher networks
